YACHTS TO RACE
FOR BECKLEY CUP

The yachtsmen of this city are now
preparing as fast as possible for the
race for the Beckley cup which will
take place next Sunday off the har-
bor. Negotiations are being made
with the owners of the steamer Cum-
mins to take out a party to follow
the yachts from start to finish. The
matter is at present in the hands of
H. P. Roth on Merchant street oppo-
site the postoffice and anyone desir-
ing to make the trip should communicate
with him and reserve accommodations,
as only a limited number will be
allowed on board. A light lunch
will be served by the Yacht club and
with the smooth weather which may
be expected on the triangular course
the trip should prove to be a very
pleasant one.

There will be seven starters in the
race for the Beckley cup: The Kame-
hameha, which won the Governor's
cup in the race around the island, the
Gladys, Helene, Kapolei, Spray, Ha-
waii and La Paloma. The handicaps
will be sealed by the committee and
will be turned over to Commodore
Cooper not to be opened till after the
race is finished.

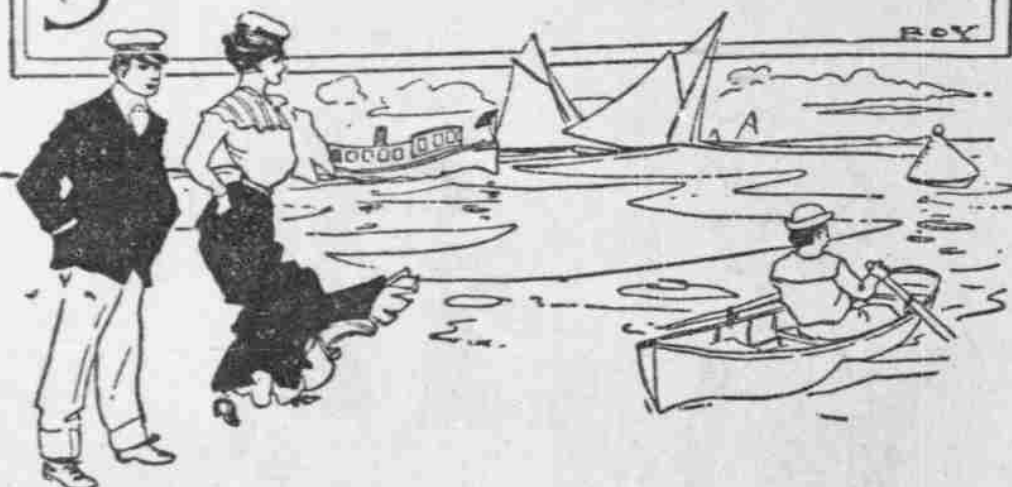

The Kamehameha will probably be
the favorite on account of her per-
formance in the last race but in case
the wind is strong and the sea smooth
any of the yachts will have a good
chance. The Kamehameha's handi-
cap will not be as small as it was be-
fore, now that her speed has been well
shown, and it is hard to pick a win-
ner, with any certainty.

W. G. IRWIN
PRESENTS CUP

The Hawaii Yacht Club is richer by
another trophy, which was presented
yesterday by W. G. Irwin, of this city
and San Francisco, for a series of races
between first-class local yachts. The
cup has not arrived as yet but it is
understood that it is being specially
made for the occasion and will be fine.
Mr. Irwin's generosity is greatly ap-
preciated by the members of the Yacht
Club.

The conditions under which the race
will be sailed have not been decided
yet but it is likely that they will cover
a course from this city to Barber's
Point and return, giving a single day's
sail, with smooth water and still a
chance of good winds. The Regatta
Committee has been requested by
Mr. Irwin to write him, suggesting a
suitable course, from which he may
decide fully on the conditions which
he desires.

APPROVE PLANS
FOR COAST TEAM

Honolulu Baseball League Talks
Over Bringing Down
of Team.

At the meeting of the Honolulu Base-
ball League, held in the office of Sec-
retary Frank Thompson yesterday af-
ternoon, the proposition in regard to
bringing a team of baseball players
from the Coast to play against a picked
team of local men was talked over and
favorably decided on. The letter in re-
gard to the matter from Jess Woods,
of the Hotel Baths, to the league, which
was published in Sunday's Advertiser,
was read and the matter talked over
at length.

The proposition in the offer was that
the league should be allowed fifteen
per cent. of the net receipts from a
series of six games, the league in return
for this to turn the grounds over to
Woods. Those present, Messrs. Thomp-
son, Gleason, Petrie, Vannatta, Wise
and Steere, representing all the clubs
in the league, decided on several con-
ditions in regard to minor affairs which
they desired to be acceded to. These
were to the effect that all passes issued
to the players for the season of 1907
should be honored at the gate; that
Woods must make his own arrange-
ments with the local players; that the
receipts should be checked by a repre-
sentative of the league; that in the
gross expenses there should be included
transportation, hotel bills, the pay of
umpires, expenses of the grounds, in-
cluding their upkeep, but that it should
not include compensation for the play-
ers, either of the team from the Coast,
or of the local team.

After the expenses enumerated above
have been deducted, 85 per cent. of the
remaining sum will belong to Woods, to
do with as he may see fit, and the
other 15 per cent. will be turned over
to the league. It was stated by the
members present that they thought it
would be a very fine thing for base-
ball in this city to have such a team
as has been suggested come here and
that they believed that the young play-
ers would learn a great deal from it.
For this reason they thought that the
local players, many of whom might not
be able to afford the sum necessary
to gain admittance to the grounds,
should be allowed in free.

The object of the league is not to
make money through these exhibition
games which are to be played, but
rather to help baseball in this city
along as much as possible. The com-
ing of players from the Coast, Ameri-
can and National Leagues is certain to
give the local players new ideas and
may be the result of local men being
sent for to join teams on the Coast,
and thus break into faster company.

It is stated that the directors of the
league will not make any objection to
the plans which have been offered, and
from the present prospects it is practi-
cally certain that the team from the
Coast, managed by "Mique" Fisher,
will be here early in November.

RICE WILL
UMPIRE GAMES

Charles A. Rice, the well-known polo
player from Kauai, who has taken part
in every match played between that is-
land and Oahu, has been selected as
the umpire for the inter-island polo
tournament between Maui and Oahu,
which takes place at Moanalua next
month. This decision was reached
through correspondence which took
place between the captains of the two
clubs, and both felt certain that no
man better fitted for the position could
be found.

An interesting feature of the games
will be the fact that in two cases
brothers will be opposed to each other
on the two teams. The Baldwin family
is represented on the Maui team by Sam
Baldwin and Frank Baldwin, while Dr.
W. D. Baldwin upholds the dignity
of his family on the Oahu aggregation.
The Fleming family also is rep-
resented on both teams. John Fleming
of this city will play at No. 2 on the
Oahu team, while David Fleming will
be seen at No. 4 on the Maui team.

TENNIS ENTRIES
ARE NOW OPEN

The entries for the tennis cham-
pionship tournament, which will commence
on August 7, opened yesterday at E. O.
Hall & Son's. They will remain open
till August 6. Entries for all the events
may be made.

The tournament in the Beretania
Club for the Wallcup will commence
on Thursday and good play is expected.
The drawings will probably be held to-
day and the tennis sharps will know
against whom they must contend.

GOLF PLAY FOR
M'INERNY CUP

First Round at Country Club
Tournament Nearly
Completed.

Golf circles have been greatly in-
terested in the tournament for the
McInerny cup, which has been going
on for the past two weeks at the
Country Club. The cup is a magnifi-
cent trophy which was presented to
the Country Club by E. A. McInerny
of this city, to be played for by the
club members. The entry list was so
large, and the other golfing events
which were in progress consumed so
much time, that the first round has
not been completed as yet, though two
matches in the second round have
been played. All the matches in the
first round must be completed before
the end of this month and several
of the players have made arrange-
ments for matches to take place this
afternoon and tomorrow.

The players are just getting used to
the links at the Country Club and
like them better as they go along and
from now on it looks as if the links in
Nuuanu valley would become the
most popular in the city. Two of the
matches which have been played up
to date are worthy of special notice.
In one of these, C. T. Wilder and C.
H. Merriam fought out a match for
nineteen holes, the former finally win-
ning out by one stroke. J. D. Gaines,
of the Cable company, had the oppo-
site experience with his opponent, C.
Kimball, whom he beat eight up and
seven to play. The following scores
have been made in the matches played
up to yesterday morning:

First Round—Dr. High beat H. P.
Roth, by default; D. Ross beat E. M.
Campbell, five up and four to play; H.
Walker beat J. G. Rothwell, six up
and five to play; O. Sorenson beat J.
H. Fiddes, four up and two to play;
C. J. Hutchins beat J. G. Farwell,
four up and three to play; F. H. Arm-
strong beat H. A. Wilder, four up and
three to play; C. S. Weight beat M.
A. Robinson, six up and five to play;
E. L. Hutchinson beat Chas. Marquise,
five up and four to play; A. T. Brock
beat A. G. Hawes, Jr., nine up and
seven to play; J. O. Young beat F. C.
Smith, nine up and eight to play; C.
T. Wilder beat C. H. Merriam, one up
in nineteen holes; H. B. Giffard beat
William Simpson, three up and two
to play; F. W. Klebahn beat R. A.
Jordan, two up and one to play; W.
W. Thayer beat C. J. Falk, five up
and four to play; D. W. Anderson
beat M. Phillips, five up and four to
play; T. Catton beat E. H. Paris, by
default; R. T. Buchly beat I. Spald-
ing, three up and one to play.

Second Round—R. T. Buchly beat
S. G. Wilder, five up and four to play;
J. D. Gaines beat C. Kimball, eight up
and seven to play.

The following matches in the first
round either have not been played as
yet or the scores have not been turned
in: C. C. Rhodes vs. J. C. Evans, J. A.
Wilder vs. A. Lewis, Jr., A. F. Ewart
vs. W. C. Wilder, E. F. Bishop vs. J.
G. Spencer, A. C. Wall vs. Prince Da-
vid, F. Waterhouse vs. J. W. Harvey.

TANDY WILL
VISIT HAWAII

The money for the yacht which is
to represent Hawaii in the coming
contest across the Pacific is coming
in very well, according to the members
of the committee who have the mat-
ter in charge. In two letters, which
have been received, however, one of
which was from Pearl City, the amount
to be given and other information was
carefully filled out, but the name of
the person who is to give the money
was forgotten.

In connection with the coming race
in 1908, letters have been received
from F. N. Tandy, through whom the
negotiations with Designer Crowning-
shield have been conducted, which
state that he will pay a visit to this
city during the coming winter. Crow-
ningshield, while one of the best known
designers in the world, has never done
very much business on the Pacific coast,
and is anxious, through the boat which
he is now drawing plans for, to make
a name for himself on this ocean. If
he can design a racer which can carry
off the transpacific trophy against
the big field which will take part in
the race, his business on the Pacific
will experience a tremendous boom.
For this reason he is trying hard to
make the design for the Hawaii yacht
the best that he has ever turned out.
Mr. Tandy will come here simply on
a pleasure trip but also in order that
he may see the yacht while she is be-
ing built, and may offer any sugges-
tions which he may happen to think
of for her betterment.

Meats cook better on a gas stove be-
cause of the distribution of heat. Have
the Honolulu Gas Co. install a stove in
your house.

How Nature Cures

Doctors the world over now admit
that electricity is the Power Nature
uses in curing disease.

It has been proven that the hu-
man body is electrical, and that the
stomach generates this power for the
support of the body and itself.

When your stomach, liver or di-
gestive organs get out of order, it is
because they lack the necessary
electricity to enable them to per-
form their regular functions. The
breaking down of one of these or-
gans nearly always causes
other trouble. Nature can't
cure them, because your body
hasn't enough electricity to
do the work, so you must as-
sist Nature by restoring this
electricity where it is need-
ed.

My Electro-Vigor does this
while you sleep.
It saturates the
nerves with its
glowing power,
and these con-
duct the force
to every organ
and tissue of
your body, re-
storing health
and giving
strength to
every part that
is weak.

Electro-Vigor
is a relief from
the old system
of drugging. It
does by natural
means what you expect drugs to
do by unnatural means. It removes
the cause of disease, and after
the cause has been removed Nature
will do the rest.

Electro-Vigor is not an electric
belt. It is a dry cell body battery,
and makes its own power.
When I began your treatment my
whole system was broken down. I

had kidney and bladder trouble,
rheumatism, that always follows kid-
ney trouble, weak stomach, vari-
cocele and general debility. Drugs
did me no good.

As for results of the use of Elec-
tro-Vigor, I will say that I am well
and hearty, every organ works prop-
erly and I have no pain.

J. L. COLWELL,
West Butte, Cal.

CARRIAGES

With a Style About Them

Many people prefer a horse and carriage to an automobile.
There's something loveable about a horse which a machine
lacks. We can supply you, however, with whichever you
may desire—a carriage or an automobile.

We have some very stylish carriages with rubber tires
and easy springs that are comfortable, reliable and handsome.
They are strong enough for the hardest work and easy
enough for perfect enjoyment.

If your carriage is old, buy a new one.
It's cheaper than having constant repairs.
